Big Form Problem

This project was bootstrapped with [Create React App](#).

In the project directory, you can run:

npm run start

Runs the app in the development mode with Microsoft Edge.
Open http://localhost:3001 to view it in the browser.

The page will reload if you make edits.
You will also see any lint errors in the console.

npm run start default

Runs the app in the development mode with default browser.
Open http://localhost:3001 to view it in the browser.

The page will reload if you make edits.
You will also see any lint errors in the console.

or

Double click on `start.cmd`(Windows) or `start.sh`(Linux)

Runs the app in the development mode with default browser.
Open http://localhost:3001 to view it in the browser.

The page will reload if you make edits.
You will also see any lint errors in the console.
